PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience building enterprise web applications using **C#, .NET, React, and SQL Server**. Delivered production systems supporting **4,600+ daily users** and managing **40,000+ financial records**, as well as an expropriation management solution handling **600+ records** for large-scale infrastructure projects. Experienced in developing end-to-end features, integrating frontend and backend systems, and working with complex business workflows.

SKILLS

ASP.NET Core | React | C# | MySQL | TypeScript | REST APIs | JavaScript | Azure DevOps | Unit Testing | Git

EXPERIENCE

FULL STACK SOFTWARE DEVELOPER, Iasi

Status32, December 2024-Present

- **Developed** full-stack features across **ASP.NET Core (C#), React, and SQL Server** for enterprise clients including CFR Marfa, Iulius Group, CNPB, and CNAIR.
- **Created** the Timesheet interface for CFR Marfa, actively used by **4,600+ users daily** to submit and manage time records.
- **Implemented** the Expropriation module for CNAIR, digitizing documentation and expense tracking for national road, highway, and land-acquisition projects — currently manages **600+ expropriation** records.
- **Developed** the National Archive module for CNAIR, enabling archivists to classify and track expropriation-related documents by legally mandated retention period (5, 10, 30 years, or permanent), replacing a manual paper-based archive.
- **Created** the invoice management interface for the CNAIR platform, enabling the addition, editing, and use of **40,000+ invoices** by the client.
- **Refactored** the Registers module in the CNPB application, cutting page load time from **10 seconds to under 1 second.**

INTERNATIONAL TRADE SPECIALIST, Iasi, Iași

VEO Worldwide Services, October 2024-December 2024

SOFTWARE ENGINEER, Iasi

Ness Digital Engineering, December 2023-May 2024

- **Developed** frontend features for an employee learning and onboarding platform using **Angular and TypeScript** within a **40-person cross-functional engineering team.**
- **Created** a **responsive admin interface** and integrated APIs for **course creation and assignment**, enabling managers to manage learning content and assign courses to employees.
- Implemented a **points and leaderboard system**, enabling managers to track employee rankings and learning activity.
- Developed **reusable UI components**, ensuring responsive design and cross-browser compatibility.

INTERN FRONT-END DEVELOPER, Iasi

Ness Digital Engineering, October 2023-December 2023

- Developed **Angular UI components** using TypeScript, HTML, and CSS, implementing responsive layouts based on project requirements.
